## PROFESSIONAL SUMMARY

Computer Science Engineering graduate with a strong foundation in Python, SQL, and web technologies. Brings exposure to software, web development and UI/UX along with professional experience in education. Seeking a role to apply technical knowledge, problem-solving ability, and a willingness to learn in an engineering team.

## EDUCATION

**Bachelor of Engineering (CSE) -87%** **| 2024**
Anjalai Ammal Mahalingam Engineering College

**HSC - 75%** **| 2020**
Ukkadai A. Appavoo Thevar Higher Secondary School

**SSLC - 91%** **| 2018**
Ukkadai A. Viswanatha Thevar Matriculation School

## WORK EXPERIENCE

**UI/UX Intern | NOVITECH** **2026**
Engaged in designing responsive, human-centric interface mockups, conducting user research.

**Educator| Neelan Matriculation Higher Secondary School** **2024-26**
Taught mathematics and problem-solving concepts to students, breaking down complex quantitative topics into clear, step-by-step logical explanations.

**Web Development Intern | Skill Intern** **2023**
Enhanced technical execution in front-end and back-end web environments while constructing responsive applications and troubleshooting web architecture issues

## TECHNICAL PROJECTS

**Smart Stick for Visually Impaired using Arduino**
Mentored the development of an IoT-based assistive device integrating Arduino microcontrollers and ultrasonic sensors to detect obstacles in real-time, providing haptic and audio feedback to enhance navigation safety for visually impaired individuals.

**Detection of Fake Social Media Profiles using Blockchain**
Designed a blockchain-based system to detect and manage fake social media profiles, leveraging decentralization and traceability for tamper-proof verification.

**Three-Level Password Authentication System**
Designed a multi-layer folder access authentication concept using three methods: a text-based passphrase, image-based password, and graphical password verification to strengthen access control.

## SKILLS

**Programming Languages:** Python, C

**Web Technologies:** HTML5, CSS3, JavaScript

**Database:** SQL

**Emerging Technologies:** Generative AI Fundamentals, Arduino Microcontrollers.

---

## CERTIFICATIONS

**Generative AI -** GUVI

**Python -** Great learning

---

## LANGUAGES

English - Professional Proficiency

Tamil - Native Proficiency
